

## **Student's Feedback on Curriculum (2023-24)**

To conduct Student's Feedback on Curriculum during the academic year 2023-24, a questionnaire was designed by IQAC of Kokrajhar Govt. College to collect information relating to students' satisfaction towards curriculum, learning and evaluation. The questionnaire was distributed to the Under Graduate students (Major Course) 6<sup>th</sup> Semester. A total of 217 Nos. of under Graduate students submitted their responses. To get a neutral, unbiased and objective response from the respondents, they were not asked to provide their names. Moreover, the questionnaire was submitted by the students in a drop box provided by IQAC for this survey.

The questionnaire was prepared covering various aspects of curriculum, learning and evaluation. There were 20 questions each with five responses out of which the respondent was asked to tick the response which he/she considered to be the most appropriate and one last question was regarding the suggestion. The responses were rated in the weightage 0 to 4 with the legends "Poor", "Fair", "Good", "Very Good", and "Excellent" / "Strongly agree", "Agree", "Neutral", "Disagree" and "Strongly Disagree," respectively.

### **1. Feedback Analysis**

Out of the total respondents, 42% rated very good and 39% rated good to the syllabus of the course curriculum. Moreover, the students were also highly satisfied with the electives in terms of their relevance as well as the evaluation scheme for each of the courses. 43% of students rated very good and 27% rated excellent to teachers' approach to teaching. In the category of teaching-learning process quality, 38% of students strongly agreed with the very good rating of the institution. However, the feedback suggests that improvement in major areas of promoting internship, student exchange, field visit opportunities, follow-up with an assignment task and use of student-centric methods are necessary. Another major area of concern for the students is the use of ICT tools for classroom delivery.

### **2. Feedback Outcome**

The overall feedback from students has been found positive, with several key strengths identified, including the clarity of course content, teachers' communication, and interactive teaching methods. However, areas for improvement were also noted, particularly around lecture pacing, lab facility, and use of ICT tools. By addressing the areas for improvement, the course can be further enhanced to better support student learning and engagement.
